30.04.05 – 01.11.05

Electrical and automation engineering Ketil Moen (sole proprietorship)

Henrichsdammen 14

3123 Tønsberg

For the second time I established a sole entity as the sole employee. The company's main goal and tasks was the same as I the first period (01.06.98 – 31.12.98).

01.11.05 – today

ABB AS

Ole Deviks vei 10

0666 Oslo

Employed at ABB O&G aftersales department in Oslo in full time as sales engineer in who should have focus on consumer industry and serve all Freelance (ABB DCS product) customers in Norway. In this position I had freedom to follow up the complete ABB Open Control System product portfolio, but with special focus on the Freelance customers. In the periode of 2008 - 2010 I dedicated 50% of my work to ABB channel parter (and System integrators) with in the ABB's Process Automation Buisness Unit. Due to my background within fieldbus technologies and project experiences I also workes as a support and service engineering within the fieldbus topics. From 1Q-2011 until today my main worktasks has been Technical Account Manager for ABB Process Automation FPSO aftersales business.
